Problems or Repairs:

5. Costumes: Adam is wondering if it would be possible to get a new white t-shirt from the package you purchased. The neck of his current one is getting very stretched out and stained with makeup

6. Costumes: The Madonna and Child tattoo appears to be the one which loses its color most quickly.

7. Lights: The guard light in Vom 3 tipped over just before we opened the house so we held to fix the shutters. It also tipped over during Act One. We readjusted as best we could during intermission, and would like to put a small spike tape square on the carpet in Vom 3 and 4 to better handle this problem during future shows.

8. Scenery: We trimmed about 6 inches off the noose before tonight's show. It is not yet showing signs of strain, but we are grateful for the backups.

9. Sound: The center speaker was not working during the 6:55 second sound check. Simon gave the amp a tap of encouragement and it popped back on and worked during the show.

Accidents or Injuries:

No notes tonight, thank you

Additional Notes:

The ACTF adjudication will follow tomorrow night's performance.

Far fewer parkas were donned during intermission tonight!

Thanks everyone,
